DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: In response to the notice of Allowance Office action dated March 23, 2005, and further to the applicant's (RCE) request dated March 01, 2006, in view of the amendments and remarks have been reviewed and respectfully considered.

According to applicant's response claims 1-10, and 14-21, have been previously introduced. Claims 1-13 have been previously cancelled. Claims 1, 9, 10 have been currently amended.

Applicant's amendment to claim 1, 9 and 10 are entered as directed to matters of form not affecting the scope of the invention, and therefore, claims 1-10 and 14-21, are believed to be still distinct from the prior art used to reject the application as indicated in the last Office action. The prior art Fukasaka (EP 0869978 A2) still does not teach or disclose wherein said image sensing apparatus determines, whether said computer is in a suspended state or not, and if it is determined that said computer is in the suspended state, said image sensing apparatus transmits a resume signal to said computer to release the suspended state.

Therefore, claims 1-10 and 14-21 have been allowed for the reason discussed above.
